This comfortable family house on a large plot with a stunning garden with water features and parkland provides enough space even for a large family, who will find perfect privacy here. The property is part of the village of Vážany surrounded by the beautiful rolling landscape of Haná, less than half an hour's drive from Brno.

The practical layout consists, on the ground floor, of a living room with a dining area, an open plan kitchen, and a **terrace with a pergola**, a laundry room, a bathroom, a separate toilet, a **large pantry**, a stairwell, and a foyer with access to the **double garage**, which also has access to the **garden**. On the first floor is a master bedroom (40 m²) with a walk-in wardrobe, 2 additional bedrooms, a bathroom, and a **separate small apartment** (with its own energy meters) containing a room, a kitchen, a bathroom, a hall, and a sleeping loft. The property also includes another building with a **"black kitchen"** with a water supply, above which is a storage area. There is also a **wine cellar** in the garden.

The house made of burnt polished bricks was approved in 2008. Windows are plastic with double glazing, **insect nets**, and interior blinds, and the floors on the ground floor are tiled. On the first floor are **wooden (cherry) floors** and the staircase is also made of **wood**. The Koryna kitchen is equipped with **Miele** appliances; the laundry room has a water softener. The living room is cozy thanks to a **wood-burning fireplace**, and the main heat source is a gas condensing boiler, while **2 solar panels** are used for hot water. The upper floor is **air-conditioned**. Facilities also include a security system with sensors and outdoor cameras. Parking is provided by a **double garage** next to the house for 2 cars, a motorbike, and bicycles, and another **separate garage** for 2 cars, and an **outdoor parking space** in the yard or on a paved area by the entrance. Sufficient water for flushing or irrigation is ensured by **2 water wells**, one dug (approx. 11 m) and the second drilled (6 m). The garden is characterized by a **large ornamental lake and pool** connected to a **stream**. The 7 x 3.5 m **swimming pool** has a cover, **counter-current system**, and salt water.

There is a kindergarten about 100 m from the houses, as well as a grocery store, restaurant, and **park** with a playground. There is a small elementary school in the neighboring village and other schools and amenities are in Vyškov, 10 minutes away by car. The village also has a bus connection to Vyškov. Driving to Brno, for example, is faster via the nearby access to the D1 highway. The beautiful surrounding countryside, which also includes the **Buchlovské Hills or the Dražanská Vrchovina Mountains**, is criss-crossed by hiking and bike trails.
