This new build, energy-efficient and barrier-free family house finished to a high-quality standard, including garden landscaping, is part of a minimalist and sustainable residential project emerging in the developing village of Ptice, located in a nice area on the outskirts of Prague.

The very **practical single-story layout** offers a **more than 50-meter living room** with a preparation for a kitchen and access to the **garden terrace**, a master bedroom with **a dressing room** and an en-suite bathroom, another 2 bedrooms with their own bathrooms, a separate toilet, a study, a utility room, and a foyer.

The building has **an energy rating of A**, which guarantees low operating costs. **Photovoltaic panels** and **recuperation** will help keep them low, and facilities include **aluminum entrance doors** in anthracite, **underfloor heating** throughout the house, an electric boiler, **air-conditioning**, vinyl floors, or 60 x 60 cm floor and wall tiles. Thanks to the **glazed HS portals** across the entire wall, the interiors will be **full of natural daylight**. A swimming pool, sauna, or garden house can be built for an additional fee. It is also possible to hand over the house in a **shell & core** state, allowing the interior to be completed according to your own ideas and needs. **Parking** is provided on a paved plot on the property.

The village has a kindergarten, a grocery store, and several **sports fields**, such as football pitches, tennis courts, and a children's playground. There is also an **equestrian center** with **stables for horses**, and another popular activity is **fishing** on the local pond. Ptice is perfectly accessible thanks to the nearby D5 and D6 highways, and the drive to the airport takes about 20 minutes. There is also an **excellent connection** to Prague via suburban buses that terminate at the Zličín metro station (a stop is located a short distance from the house).

Usable area 203,99 m², of which terrace 25.2 m, built-up area 203,99 m², garden 747,01 m², plot 951 m².
