The new build, energy-efficient and barrier-free family house finished to a high-quality standard, including garden landscaping, is part of a minimalist and sustainable residential project emerging in the developing village of Ptice, located in a nice area on the outskirts of Prague.

The very **practical single-story layout** offers a more than **50-meter living room** with a preparation for a kitchen and access to the **garden terrace**, a master bedroom with a **dressing room and an en-suite bathroom**, another 2 bedrooms with their own bathrooms, a separate toilet, a study, a utility room, and a foyer.

The building has an **energy rating of A**, which guarantees **low operating costs. Photovoltaic panels and recuperation** will help keep them low, and facilites include aluminum entrance doors in anthracite, **underfloor heating** throughout the house, an electric boiler, **air-conditioning**, vinyl floors, or 60 x 60 cm tiles. Thanks to the **glazed HS portals** across the entire wall, the interiors will be **full of natural daylight.** A swimming pool, sauna, or garden house can be built for an additional fee. It is also possible to hand over the house in a **shell & core** state, allowing the interior to be completed according to your own ideas and needs. **Parking** is provided on a paved plot on the property.

The village has a kindergarten, a grocery store, and **several sports fields**, such as football pitches, tennis courts, and a children's playground. There is also an **equestrian center** with stables for horses, and another popular activity is **fishing** on the local pond. Ptice is **perfectly accessible** thanks to the nearby D5 and D6 highways, and the drive to the airport takes about 20 minutes. There is also an excellent connection to Prague via suburban buses that terminate at the Zličín metro station (a stop is located a short distance from the house).

Usable area 203.99 m², of which terrace 25.2 m, built-up area 203.99 m², garden 612.01 m², plot 816 m².
