- Project - in the study phase, will serve as a **basis for preparing documentation for zoning proceedings and building permit**. Studies are elaborated into completed layouts of all floors, building sections, and mass visualizations, which will serve as a basis for the concepts of building services specialists.

- The concept has been discussed with the City of Brno's Transport Department and further consulted with the Department of Urban Planning and Development. Its intention is in line with the city's current urban plan.

- Sale in the form of a transfer of business shares

- **Location**

Strategic location near the center of Brno, major urban ring road, easily accessible by car and public transport. Quiet location, view of Brno. Large catchment area in terms of the placement of medical facilities, attractive location for both short-term and long-term living.

Gross floor area 10,500 m², plot 6,433 m².
