This brand-new apartment with a loggia is part of the modern ZORA Harrachov project, which brings a fresh perspective on mountain living. The popular resort, located amidst the beautiful nature on the border of the Jizera and Krkonoše Mountains, offers excellent skiing conditions in a modernized ski area that will allow skiing from December to April. The completion date is planned for Q3/2027.

The area of the 2nd floor apartment consists of a living room with a preparation for a kitchen, a spacious bedroom, a bathroom (with a walk-in shower and toilet), a hallway, and a pantry. It will be possible to enter the southeast-facing loggia from the living room and bedroom.

Facilities include large French windows with aluminum frames, wooden interior doors, vinyl floors, large-format tiles, underfloor heating, a recuperation unit, and a preparation for air-conditioning and shading. The price includes a cellar, and a garage parking space can be purchased. Residents will have access to a spacious ski/bicycle storage room and a common room with a kitchen.

The project is located in a quiet part of Harrachov, yet restaurants and a supermarket are within walking distance. The resort also offers cafes, bakeries and restaurants, shops, rental shops, and ski services. Thanks to the planned return of international ski jumping competitions, the entire resort is currently being gradually modernized. The rich offer of local activities is further expanded by the nearby Polish Polana Jakuszycka sports complex, the starting point of cross-country trails connected to the Jizera Highway. Harrachov is easily accessible, and the drive from the outskirts of Prague takes about an hour and a half. Direct bus connections are also available.

Floor area 50.03 m<sup>2</sup>, loggia 4.07 m<sup>2</sup>.

For a complete overview of the units and additional information, please visit the project's website: [www.zoraharrachov.cz](http://www.zoraharrachov.cz).

\* Area of the unit according to the Civil Code. The area consists of the sum total area of the entire unit bounded by perimeter walls.
