This nearly 200-square-meter sunlit apartment occupies the entire 1st floor of a newly renovated villa in a quiet part of Záběhlice. The apartment features two balconies, a private garden with a terrace, and two parking spaces. It will be delivered in a completed state, allowing new owners to choose the final finishes and bathroom designs from available options.

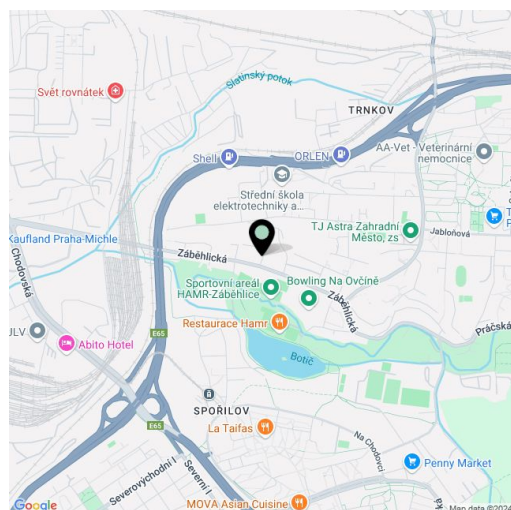

This separate residential unit with a private entrance features windows facing **all cardinal directions**. Its layout includes a living room connected to a dining area and kitchen, a master bedroom with an **en-suite bathroom** and balcony, a walk-in closet, two additional bedrooms (one with access to a second balcony), a bathroom, a utility room, a hallway, and an entryway. The unit comes with two outdoor parking spaces, pre-wired for a **wallbox**. The villa consists of only three residential units.

The apartment features **wooden windows** with triple-glazed insulation, complemented by exterior blinds on the south side, as well as underfloor heating, **air-conditioning**, and a fireplace. New owners can choose from several high-end bathroom and flooring options. A **smart home system** facilitates the control of exterior blinds, thermostats, heating, the entrance barrier, and video intercom communication, with the option to add additional features. The apartment can also be delivered in a white box condition.

The **Záběhlice** district offers full civic amenities, including restaurants, shops, a medical center, a kindergarten, and an elementary school, along with numerous playgrounds. Sports enthusiasts will appreciate the large **Hamr sports complex**, which features 18 tennis courts, beach volleyball, squash, and table tennis. The nearby **Hamr Pond** is ideal for walks and bike trips. A bus stop just two minutes away on foot provides quick and convenient transport to the city center.

Floor area 191.58 m² (of which balconies 9.73 m² and 10.52 m²), garden 388.16 m².

Planned completion: Q3 2025.

* Area of the unit according to the Civil Code. The area consists of the sum total area of the entire unit bounded by perimeter walls.
