Modern office building, designed by world-renowned architect Ricardo Bofill, offering more than 17,000 square meters of office space. A high performance facade ensures enough natural light while a number of environmentally-friendly solutions were applied to minimize the impact on the environment and significantly reduce operating costs. The project seeks to be awarded with a Gold LEED ecological certificate.

Location:

The modern Class A building is strategically located in an established area by the Křižíkova metro (line B) station, within walking distance of the city center. The project is connected to the inner circle of Prague and other key communication centers.

Features and Services:

The building amenities include flexible layouts, and therefore are suitable for both large corporations and companies in need of medium-sized workplaces. In addition to an impressive atrium, which provides plenty of natural light for the offices, the project will offer a beautiful garden, which will serve all employees as a quiet resting place as well as a place to work.

Rental and service charges are listed without VAT. Lessee pays no commission.
