This tastefully designed villa for sale is located in San Jose on the southwestern coast of the island of Ibiza. It is close to pristine beaches and the restaurants and shops in the village.

On the ground floor of this large 600 sq. m. villa there is a spacious living room with long wooden sliding doors that lead to a covered porch with arched openings onto an outside seating platform and a pool. The dining room is connected to a modern kitchen with handleless cabinets and built-in appliances. The door frames and window frames are solid wood, contrasting beautifully with the white walls and curtains.

There are a total of 7 comfortable bedrooms, some with built-in closets and en suite bathrooms. The bathrooms have double sinks, baths, and showers. The villa has a typical Ibizan exterior, with thick white walls, paved decks and patios, a verdant garden, courtyards, and many shady corners and nooks with seats and tables. The property is surrounded by tall trees that provide shade and privacy, and there is a gorgeous infinity pool that seems to meet the treetops.

The house is ideal for people who prefer simple, yet elegant interiors and enjoy retiring to the countryside for part of the year.

House: 600 sq. m., plot: 12,500 sq. m.
