Nestled on a hillside overlooking the sea in Es Cubells on the southern end of the island of Ibiza, this magical, playful, artistic and in some ways typical Ibizan villa boasts beautiful views.

Built out of mixed materials on a stone cliff, the villa contains many artistic touches and original artwork. For instance, there are pillars that depict Grecian muses, arched doorways and windows, and a XIII century wooden Modejar paneled ceiling in the living room. Everything has been designed to the last detail, such as the color of the drapes and curtains over all of the windows and over some of the beds and outside seats. There is a relaxing fountain connecting the living room and kitchen.

The villa features a large living room, a master bedroom with an en suite bathroom decorated in a charming style and views of the sea, five additional bedrooms, and six bathrooms, one of which has a Jacuzzi. There is a large upstairs terrace perfect for entertaining. The garden is like a magical landscape with many flowers in bloom and greenery. The various outdoor relaxation spaces are ideal spaces for siestas.

This enchanting villa is perfect for those inspired by playful and colorful interiors.
