The slightly sloping sunny plot is located at the end of a cul-de-sac near the forest. **Utility networks** are connected to the boundary of the plot and there is an asphalt driveway.

The purchase price includes a study for a family house prepared according to the current zoning plan; the design corresponds to the surrounding development. The study suggests a two-story house with a partial basement. On the ground floor, there will be a living room, a dining room, a kitchen, a **winter garden**, a **wellness area** with a fitness room, spa, and sauna, a study, and a utility room. The living space and wellness area will be connected by **garden terraces**. Upstairs, there can be 4 bedrooms, 3 bathrooms, 3 dressing rooms, and a **large sunny terrace** overlooking the garden. In addition, there is a plan to build a **garage for up to 6 cars** with direct access to the house.
