The house will be equipped with **aluminum windows** with triple-glazed panes and anti-UV foils, **wooden floors**, underfloor heating in the living room and bathrooms (the heat source is a gas boiler), and high-quality sanitary ware. The house is connected to the city's water supply and sewerage system and also has its **own water well**. Parking is available on the plot.

There is a kindergarten and elementary school, a House of Children and Youth, a nursery, a health center, a dental office, a post office, grocery stores, cafes, restaurants, and other services.
