This spacious, air-conditioned Koh-i-Noor penthouse with a floor area of more than 300 sq. m. and 132 sq. m. of terraces provides direct views of the green Vítkov Hill. This premium unit is one of only five penthouses located at the very top of the Diamanty Karlín residential project. Two apartment buildings, designed by renowned architects Eva Jiříčková and Petr Vágner, will become a new landmark on Rohan Island. The penthouse will offer all possible comforts, and the location of the building is within walking distance of a golf club and many famous gourmet establishments. The apartment is in a state of white walls, leaving the buyer complete freedom to complete it according to their own taste and ideas.

The main part of the day zone will be a light and airy living space with a double-height ceiling (5.9m) and a glass wall blurring the boundaries between the inside and outside. **Two terraces** are accessible from the living area. The quiet zone will consist of 4 bedrooms and 3 bathrooms, 2 separate toilets, and an entrance hall. In addition to the living area, the **roof terrace** will also have space for a **garden**.

The high-standard facilities will include **oak floors** (choice of shade), underfloor heating throughout the entire area of the apartment, a **monumental staircase**, aluminum windows with insulated glass, a **Loxone** intelligent home system to control lighting, air-conditioning, blinds, and recuperation, Laufen sanitary ware, interior doors with concealed hinges, entrance security fire doors, and a videophone. The atmosphere is enhanced by first-class natural materials such as wood and glass. The purchase price includes **4 garage spaces, a cellar and an electric car charging station**. The building will be protected by a **central reception** and a camera system; residents can use a pram/bike room, an area for washing bikes or dogs, and a **shared garden** with soothing views of the flowing water.

This until recently unused part of Rohanský Island in the popular **Karlín** district is currently undergoing an incredible transformation into a modern residential area with extensive green areas and a promenade along the **Vltava River for pedestrians**, runners, and cyclists. From Rohan City, it will be a short distance to Karlín's popular bistros, restaurants, and cafes; the **new footbridge** will make it easy to walk to another trendy district—Holešovice—and the center of Prague is just beyond the nearby **Negrelli Viaduct**.

Floor area 312.9 m², terraces 132.2 m² (13 m², 13 m² + roof terrace 46 and 60.4 m²)
