A completely new apartment with a terrace, finished to a high standard, is part of a residential project involving the complete revitalization of a corner apartment building from the early 20th century. The location of upper Žižkov offers proximity to both greenery and the city center, and thanks to dynamic development, the range of services in the area is also expanding. Completion is scheduled by the end of February 2025.

The layout of the apartment on the 6th floor comprises a living room with kitchen and access to the north-facing terrace, 1 larger and 1 smaller bedroom with access to the bathroom, a separate toilet, laundry room, and entrance hall. The terrace is oriented into a courtyard.

High-standard features include four-layered oak floors by Boen, large-format tiles in bathrooms by La Futura, premium sanitary ware from Ideal Standard, Kaldewei, and Hüppe brands, entrance and interior doors by Sapeli, underfloor heating and air conditioning. Heating will be provided by De Dietrich gas condensing boiler. A significant added value comes from large format windows with anthracite plastic-aluminum frames and external blinds. The building will have a new facade, renovated common areas, and an elevator serving the floors.

The project is situated on a side one-way street lined with mature trees in the vibrant area of upper Žižkov, near parks such as Vítkov and Parukářka. Another large park will be created alongside a new district in the former Žižkov freight station area. Due to the new residential development, the range of services in the vicinity will significantly expand. Currently, there are numerous locally-owned businesses in the area, with the popular Aero art cinema located almost beneath the residence's windows. Nearby are nurseries, elementary and high schools, as well as a sports complex with an indoor pool and outdoor swimming pool. Quick connections to the city center are provided by numerous tram lines, with a journey to Wenceslas Square taking just 15 minutes. Even faster access is available to Želivského or Palmovka metro stations.

Floor area 112.7 m<sup>2</sup>, terrace 12.60 m<sup>2</sup>.
