Available area for rent	115 500 m ²
Ceiling height	16.5 m
Floor loading capacity	5 t/m ²
Column grid structure	—
Structure	Reinforced concrete structure
PENB	G
Reference number	44256

The logistics park offers warehouse, production and office space for lease. The planned park will become the most modern distribution logistics facility in the heart of Europe. The park adjacent to the international air terminal stands out with its exceptionally high-quality and diverse transport infrastructure. It will use the synergies of the international airport, the D1, D56 and I / 58 roads and, in the future, also railway transport. Thanks to the planned Ostrava Airport railway terminal, a so-called multimodal complex will be created in the locality, which will offer unique logistics capacities and possibilities. To move in 12-15 months after signing the contract.

Location:

The park will be built at Leoš Janáček Airport, only 20 km from the center of Ostrava. The place is easily accessible via the D48 motorway, exit 51, which is the main regional road to Poland and the eastern part of the Czech Republic. Perfect connection to Slovakia via the D48 motorway and the I / 68 and I / 11 motorways. Leoš Janáček Airport in Ostrava operates domestic and international flights, for example between Ostrava and London, Paris and Düsseldorf.

Features and Services:

- Flexible units (storage / office / light production / showroom)
- Onsite property management
- Park maintenance
- 2 149 car parking places
