Available area	120 m²
Parking	-
PENB	G
Reference number	5498

Ground floor retail space with show windows facing the street, in a brick building situated on a busy street connecting Dejvická and Hradčanská metro stations (line A). With major bank branches represented in the area, there is a large number of bank clients passing the street daily. The number of passers by should increase significantly in the near future as Dejvická street is under consideration for being turned into a pedestrian zone. The layout can be adjusted according to the prospective tenant's needs. Lessee pays no commission. Available from July 2010.
