Available area	74 m²
Parking	-
PENB	G
Reference number	5501

Ground floor retail premises with a show window facing the street, in a residential building situated directly opposite the exit from a busy shopping arcade - a passage leading to Dejvická metro station (line A) and multiple tram and bus connections. With all the major bank branches represented in the area, there is a large number of bank clients passing the neighbouring Dejvická street daily. The number of passers by should increase significantly in the near future as Dejvická street is under consideration for being turned into a pedestrian zone. The layout can be adjusted according to the prospective tenant's needs. Possibility to rent 61 m² of semi-basement space together with the premises. Lessee pays no commission.
