This renovated typical 1930's villa has a 561 m² garden and is located in one of the most sought after residential areas of Prague 6. The villa has a double living room/dining room connected to a conservatory/winter garden, a fitted and equipped eat in kitchen, 1 bathroom, and 2 WC's, 3 bedrooms and parquet floors through out. The villa has a bit of an old fashioned feel with the original wooden stairway and wood trim in the entrance hall. The street is quiet and the location is very convenient to the center and public transportation.
